LW Series

Changes to Methods of Identification on LW3021A Rocker

Type of Change:

- Engineering
- Part Number
- Product
- Appearance

There will be revisions to the methods of identification on the LW Series rocker switch, LW3021A. The ON-OFF indication, part number, rating, circuit diagram and NKK logo will change from a sticker to laser marking on the switch case, and the color from black to off-white. The lot number, previously imprinted above the case on the frame, will relocate to the lower right side of the case and be laser etched. These changes will effect the standard part number, LW3021A, and any related custom part numbers.

Before Changes	Lot Number		
	Location	Color of Marking	Method
	Frame	N/A	Imprint
After Changes			
	Switch Body	Off-white	Laser Etch

Notes

There are no changes to the switch’s dimensions or specifications. Contact information is below if more details are needed.

Effective Date

Changes for LW Series Rockers will be effective December 2023.
