JW Series

Changes to Method of Identification on Switch Housing for JW Series Rockers

Type of Change:

- Engineering Part Number
- Product Appearance

1. Sides of the switch housing for JWM, JWMW, JWL and JWLW models of the JW Series will reflect changes in the method of identification for their part number, factory code, lot code, and ON - OFF indications. Previously, the method has been engraving, but will be revised to laser etching. This change will apply to all standard and custom JW Series switches. Effected standard part numbers are on pages 3-7.

Changes to Identification on Switch Housing for JW Series

JW Series Rockers	Before Change	After Change
Method of Identification	Engraving	Laser Etching

Notes

There are no changes to any of the switches' mechanical functionality, specifications or dimensions. Contact information is below if more details are needed.

Changes to Location on Switch Housing for Factory and Lot Codes and ON-OFF Indication

Type of Change:

- Engineering Part Number
- Product Appearance

2. Sides of the switch housing for JWM, JWMW, JWL and JWLW models of the JW Series will reflect changes in identification, including the location of factory codes, lot codes, and ON - OFF indications. See the table on page 2 to view the *Before* and *After* changes on the switch housing. These revisions will apply to standard and custom JW Series switches. Effected standard part numbers are the same as for Change 1 and appear on pages 3-7.

Effective Date

Changes **1 and 2** for revisions to identification on JW Series switch housing will be effective January 2027. However, the end of sales date may be subject to change depending on inventory of parts.
