Changes to Material of the Operating Plate for Specific Models of MB Series

Type of Change:

- ☒ Engineering ☐ Part Number
☒ Product ☐ Appearance

There will be a revision to the material of the operating plate on the snap-action MB Series Pushbuttons, for both MBNR and MBNF (formerly MB2400 and MB2500). MBNR will include bushing mount, bracket PC mount, and snap-in mount, and MBNF will affect bushing mount models.

The operating plate material, currently polyacetal, will change to polybutylene terephthalate (PBT). This revision will apply to both standard and custom switches. Effected standard part numbers are listed on the table below and on page 2.
